QUOTATION

CUSTOMER: Circuit Dojo LLC
ADDRESS: 1118 Main Street #1
Branford, CT 06405
CONTACT: Jared Wolff, Owner

DATE: March 17, 2021
QUOTE#: 21-03-9006-01A
PHONE#: 203.444.5660

NOTES:

- This is quoted as a RoHS assembly.
- CIC to supply material and assemble complete per customer supplied documentation.
- Turnkey quote Circuit Dojo to supply the following components at zero dollars.
 - Bare pc board. Must be at least a 2 up array, with rails
- Consigned quote Circuit Dojo to supply all material. All SMT components must be on tape/reel and/or tubes. Parts must be received on continuous tape with overage included.
- SMT components not received properly may incur a taping fee.
- CIC workmanship standard IPC-610 Class 2 current revision.

CIC quotation number must appear on all purchase orders. Send purchase orders to orders@cicems.com.

Please call if you have any questions.

DELIVERY: Turnkey - 9 weeks A.R.O. as long as current vendor stock is still available.

Consigned - 4 weeks A.R.M. The delivery cycle starts after kit completion (all parts at CIC)
and all technical issues are resolved.

PAYMENT TERMS: Net 30

F.O.B. Hamden, CT

The prices set forth in this Quotation are valid for thirty (30) days after its issuance, after which they may change due to fluctuations in materials prices and lead times. This Quotation incorporates by reference Carlton Industries Corporation's Conditions of Sale, which are available at <http://cicems.com/terms>. The Conditions of Sale are binding upon Buyer, even if Buyer accepts this Quotation more than thirty (30) days after its issuance.

Quoted price does not include any potentially imposed tariffs and/or import duties. Please remember that this is an imposed tax from the Office of the United States Trade Representative (USTR) and CIC does not have any control over it.

Due to the current market conditions on component allocations, pricing and lead time may change after procurement.

Customer will be notified and is responsible for any increases.

Scheduled orders can also be affected.

Linda Skowronek
Manufacturing Engineer
